Uncle Sam Begins Collection of Federal Income Tax For Last Year.

Same Rate As in 1919.

Revenue Officers to Visit Every County to Assist in Making Out Returns.

Work has begun on the collection of the income tax for the year 1920. Uncle Sam, through the Bureau of Internal Revenue, is addressing to every person in the United States the question, "What was your net income for 1920?" The answer permits of no guesswork. Every single person whose net income for 1920 was \$1,000 or more and every married person whose net income was \$2,000 or more is required to file a return under oath with the collector of internal revenue for the district in which he lives on or before March 15, 1921.

The penalty for failure is a fine of not more than \$1,000 and an additional assessment of 25 per cent of the amount of tax due. For willful refusal to make a return the penalty is a fine of not more than \$10,000 or not exceeding one year's imprisonment, or both together with the cost of prosecution. A similar penalty is provided for making a false or fraudulent return, together with an additional assessment of 50 per cent of the amount of tax evaded.

WOMEN MUST PAY TAX.

The income tax applies to women as well as men. Husband and wife must consider the income of both plus that of minor dependent children, and if the total equals or exceeds \$2,000 a return must be filed. A minor who has a net income in his own right of \$1,000 or more must file a separate return. To be allowed the \$2,000 exemption a married person must be living with husband or wife on the last day of the taxable year, December 31, 1920. Divorcees, persons separated by mutual agreement, widows and widowers, unless they are the sole support of others living in the same household, in which case they are allowed the \$2,000 exemption granted the head of a family, are entitled

only to \$1,000 exemption.

TAX RATES FOR 1920.

The normal tax rate for 1920 is the same as for 1919—4 per cent on the first \$4,000 of net income above the exemption and 8 per cent on the remaining net income. This applies to every citizen and resident of the United States. In addition to the normal tax a surtax is imposed upon net income in excess of \$5,000.

INSTRUCTIONS ON FORM.

Full instructions for making out returns are contained on the forms, copies of which may be obtained from collector of internal revenue. Persons whose net income for 1920 was \$5,000 or less should use Form 1040A. Those with incomes in excess of \$5,000 should use Form 1040.

Revenue officers will visit every county in the United States to assist taxpayers in making out their returns. The date of their arrival and the location of their offices will be announced by the press or may be ascertained upon inquiry at the office of the collector. This advisory service is without cost to taxpayers.

Bad Cold and Cough Cured by Chamberlain's Cough Remedy.

Several years ago C. D. Glass, Gardner, Mo., contracted a severe cold and cough. He tried various medicines but instead of getting well he kept adding to it by contracting fresh colds. Nothing he had taken for it was of any permanent benefit until a druggist advised him to try Chamberlain's Cough Remedy. He says "I was completely cured by this remedy and have since always turned to it when I had a cold and soon find relief."

Pastry Shells

Bake pastry in or on the outside of muffin pans and fill these shells with jam, preserves, or well-sweetened stewed fruit. With or without the addition of whipped cream these form a delicious dessert.

These shells may be filled with creamed chicken, creamed peas, or other creamed vegetables, adding an attractive dish for another meal.

Notice To Hunters

On account of having my stock disturbed by hunters and dogs, no hunting will be allowed on my land inside of inclosure, either cleared or timber land.

L. V. E. HERMAN, Brickey's, Mo.

The mop is very frequently floured, but not in a household argument.

ADVANTAGE NOW WITH WOMEN

Modern Feminine Garments Such That They No Longer Need "Take All Day to Dress."

No longer does it "take her all day to dress." Quietly and steadily woman has got rid of many checks upon rapidity of dressing; has consolidated garments, abolished buttons, done away with hooks and eyes, abandoned very often even corsets and the "fixing" of her hair, while man is quite as slow a dresser now as when Uncle C. Depew repeated his first story.

Not, of course, if woman garbs herself for purposes strictly social. This means one-tenth dressing and nine-tenths preparation of an armament that no stupid League of Nations would ever hope to curb. Very different is the morning method of feminine executives, of girls intent on business, study or art, of stump-speaking ladies when in transit.

Brother dazed himself with speed when first he fastened trousers with a belt, though buttons still remain for the "weekit" and the coat and that weary round of pearl and gold buttons for the shirt. But sister takes her one-piece suit at a single hurdle and snaps a single "snapper" at the waist.

Long ago man hopped into his congress gaiters. Now he ties his oxford. His wife, however, steps into her pumps.

"Making her hair" once impeded mother's toilet. Fathers having hair to part must part it still. But daughter, being "bobbed," gives her hair one shake to "do" it.

"Nowadays," says an expert, "a girl can easily dress in ten minutes. Then she adds 20 for making up her face."

SALMON HAD TRAVELED FAR

Fish "Tagged" at Point Partridge, Washington, in 1918, Taken in Waters 800 Miles Distant.

The Canadian department of marine and fisheries has notified the bureau of fisheries of the United States Department of Commerce of the capture in the Skeena river, British Columbia, in the spring of 1920, of a chinook salmon bearing an aluminum button or tag with the letters "B. F." stamped on one side and the number "1911" on the other. An examination of the bureau's records shows that the tag in question, one of a special series employed in connection with an investigation of the rate and route of migration of the sockeye salmon in the Fraser river-Puget sound region, was attached to a fish at Point Partridge, Whitely Island, Wash., on August 13, 1918. It is now evident that the fish was a chinook salmon tagged by mistake.

The fact that a chinook salmon should be caught in a shore trap far from the sea two years after the fish attained the spawning condition is interesting and suggestive, and the wanderings of this fish before and after tagging would be a fascinating theme for speculation. The distance between the two points at which it came under observation is about 600 miles by the most direct water route.

At Four-Forty.

Theater orchestras throughout the country have fixed on a tone standard for general use in all theaters. The A is tuned to 440 vibrations a second. Louis Ruth, manager of B. F. Keith's orchestra, called up a local piano tuner and asked him to go to Keith's to tune the piano.

"I wish you would give it immediate attention," Ruth told the piano man. "Tune it at four-forty."

A day passed and the piano in the Keith pit remained untuned. Ruth called up the man who took the job.

"You haven't touched our piano," Ruth said a bit indignantly.

"Well, I was over there at 20 minutes to five yesterday afternoon and couldn't get in," was the excuse.

And then Ruth explained what he meant by four-forty.—Indianapolis News.

Increase in World's Crops.

A bulletin issued by the international institute of agriculture announces that the aggregate wheat and rye crops of the northern hemisphere total 82,400,000 metric tons, as against 61,700,000 metric tons in 1919. The production of barley, according to the bulletin was 8 per cent larger than last year, while oats increased 21 per cent. The maize crop of southern Europe was good, and that in America 10 per cent more than last year. The probable yield of beet sugar is considered favorable by the institute. The export of 400,000 tons of wheat from British India is advocated by the institute.

Mabel and Myrtle.

Representative Dawson, the anti-suffrage leader, said at a luncheon: "Woman's place is the home. When she starts out to imitate man she is absurd."

"Mabel was a new woman. She said to Myrtle one afternoon:

"We'll make a night of it. Come to the Ritz with me and we'll have a fellowship dinner."

"A fellowship dinner? What's that?" said Myrtle.

"Why," said Mabel, "you pay for mine, and I pay for yours."

Not Apprehensive.

"Aren't you afraid America will become isolated?"

"Not if our farmers keep raising things the world needs," answered Farmer Cornsossel. "The feller that rings the dinner bell never runs much risk of being lonesome."

Breakfast Cereals May Be Easily Prepared At Home

In early times there were many ways of preparing grains and meal, such as frumenty and the good King Arthur's famous "bag pudding." The partly cooked and ready-to-eat cereals have become so popular in recent years that the old-fashioned methods of cooking grains are now less common. The ingenious housekeeper can, however, vary her breakfast cereals by the use of simple meals or grains, say food specialists of the United States Department of Agriculture.

One of the dishes which the early New England settlers probably copied from their Indian neighbors is the homely cornmeal mush, or hasty pudding. This is made by boiling ordinary corn meal in milk or water. If properly cooked, it is a nutritious and economical dish and has the advantage—dear to the thrifty housewife—that the leftover portion will be relished if cut in slices and fried.

Another popular way of using certain varieties of corn is as pop corn. This can not be strictly termed a breakfast food, but it is frequently eaten with milk, like other cereal preparations.

If the task of cooking must be considered, and strict economy is necessary, crackers in milk may be substituted for the ready-cooked breakfast cereals. Crackers are similar to regular breakfast foods in composition, and at average prices furnish more nourishment for the same amount of money. Nor should it be forgotten that as a rational, palatable, and economical dish, bread and milk rank high.

Notice—Anyone caught hunting, trapping or otherwise trespassing on our land will be prosecuted.

Mother: "Did I hear you kiss young Dr. Phlynn at the door?"
Daughter: "Yes, mamma; but Charley applied an antiseptic immediately."

The Hicks Weather Book For 1921

The famous and unique book is now ready. The 1921 edition is the best yet; contains all the old popular and many new features. It is worth its weight in gold to those whose occupations, or pleasure trips, are affected by the weather. The predictions of storms, tornadoes, blizzards, floods and earthquakes are a marvel of accuracy.

Price by mail, 50 cents. The same publishers also issue the monthly magazine, Word and Works, a family magazine with the weather forecasts as a leading feature. Subscription price of Word and Works is \$1.50 a year with The Hicks Almanac to each subscriber. Send orders to The Hicks Almanac and Publishing Co., 3401 Franklin Ave., St. Louis, Mo.

For a Persistent Cough.

Some years ago H. P. Burbage, a student at law in Greenville, S. C., had been troubled for a long while with a persistent cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Having seen Chamberlain's Cough Remedy advertised he concluded to try it. "I soon felt a remarkable change and after using two bottles of the small size was permanently cured."

C. A. FULDNER, OPT. D. of the firm of FULDNER & COMPANY, Marina Bldg., 306 N. Grand Ave., St. Louis, Mo., specializing in the correction of eyesight, eyestrain, and the proper fitting of glasses, will be in Ste. Genevieve again Wednesday, Jan 19 at the Meyer Hotel from 8 a. m. to 4 p. m. Any word may be left for him there.

Write for information or appointment.

Ingrowing nails are very painful and result from shoes too narrow across the toes. Bathe the foot in warm water to which a tablespoonful of borax has been added. Dry carefully and wash around the nail with a disinfectant and apply a little zinc ointment to the sore spot. Press the flesh back and insert a little wad of lint moistened with alcohol under the corners of the nail. This treatment should be repeated daily.
